

PROFILE

Steven is a senior Management Professional with more than 20 years of experience. As a Senior Program and Project Manager, he is involved in the consulting, training, mentoring, coaching and project delivery services of GAPS bv, which he founded in 2005.

With a true passion for the project management profession!

Over more than 20 years, Steven has participated in projects in a multinational context, being involved in different areas, ranging from ERP implementations, Business Process (re-) Engineering, Change Management Initiatives, organizing and implementing Project Management Offices (PMO), construction, etc.

Steven's specialties are his in-depth stakeholder management expertise and his ability to take over troubled projects with a proven record track of getting the project back on track or at least to minimize the damage incurred.

A genuine desire to overcome difficulties and drive to success!

End 2011 he returned from senior consultancy & training expert to the "real life" of project management delivery. As the end-to-end Program Manager of the Brussels Airport "Connector" program, he guided the Brussels Airport organization from concept to realization. The construction program realized an above ground connection building between two piers, including a security screening platform and a commercial area.

From 2007 until 2015, Steven has been a visiting professor at the University Ghent, responsible for the academic courses "ICT Project Management" and "Project Management Simulator". For the Project Management Simulator, Steven developed a complete case driven project management training program which is supported by an on-line tool.

Steven is also known as an energizing coach and trainer for a multitude of clients. For several clients, new (project management) training programs were developed and delivered by Steven. Steven is also a well appreciated personal mentor & coach in support of senior project managers

Empathic manager, willing to share his expertise and experience, putting people central!
